NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. If agreement has been reached to increase any or all of those salaries during the 1970-71 fiscal year, what will be the annual salary rate of every deputy minister after the increases come into effect; and what will be the effective date of the increases.
13. *Mr. Martel*—Enquiry of the Ministry—(a) How many sons and/or daughters of the following received student awards in the academic year 1969-70: Doctors (all types); Lawyers; Dentists; Chiropractors; Teachers; Architects; Accountants; Businessmen; Managers in businesses; (b) How many sons and/or daughters received student awards in the academic year 1969-70 whose parents net earnings were: (a) 10,000; (b) 11,000; (c) 12,000; (d) 13,000; (e) 14,000; (f) 15,000; (g) 16,000; (h) 17,000; (i) 18,000; (j) 19,000; (k) 20,000; (l) 20,000 to 25,000; (m) 25,000 and over.
14. *Mr. Sargent*—Enquiry of the Ministry—How many meetings have been held with neighbouring States of the Union, including New York, Michigan and Illinois, on the problem of pollution in international waters; what are the dates of such meetings; who attended on behalf of Ontario and are reports of such meetings available.

15. *Mr. Ferrier*—Enquiry of the Ministry—How many students have enrolled at the beginning of each academic year in the various courses at the Porcupine Campus of the Northern College of Applied Arts and Technology since it opened in the fall of 1967. How many students have been forced to withdraw each year because of failure in examinations. How many students each year have withdrawn for other reasons. What has been the staff-student ratio in each year. What has been the number of staff employed each year of its operation. How many teachers have been fired each year, and what is the reason given for each firing. How many teachers have resigned each year, and what is the reason for each resignation.
17. *Mr. Makarchuk*—Enquiry of the Ministry—1. What are all the sources of pollution located by the O.W.R.C. which are contributing to the pollution of the Grand River. 2. What action is being taken or contemplated by the Government aimed at terminating this pollution. 3. What are the target dates.
18. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—How many written requests were received in 1969 by the Department of Education for their "consultative Service for School Personnel" as described on page 80 of the publication entitled *Ontario Government Services, 1970*. What are the names of all the local authorities involved. How many such requests were received from January 1, 1970, to March 31, 1970. What are the names of all the local authorities involved.
19. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry— How many written requests were received in 1969 by the Department of Education from school boards for "consultative Services to School Boards" as described on page 82 of the publication entitled *Ontario Government Services, 1970*. What are the names of the School Boards involved. How many such requests were received from January 1, 1970 to March 31, 1970. What are the names of the school boards involved.
22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.
23. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—1. Has the Minister of Health given consideration to the recommendation that the use of the pesticide ALPHACHLORALOSE as an agent for the live capture of ducks should be discouraged. 2. Has the Minister issued a directive discouraging the use of ALPHACHLORALOSE. 3. Has the Department of Health given consideration to the restructuring of the Ontario Pesticides Advisory Board to remove the representatives of manufacturers or distributors of pesticides as recommended by the Royal Commission.

4. Has the Minister given consideration to the restructuring of the Ontario Pesticides Advisory Board as recommended by the Royal Commission to:—give it the responsibility to recommend the appropriate standards for examination and re-examination for licences, but not itself conduct such examinations, thus permitting the raising of standards;—give it the responsibility to serve as a compiler of information on pesticides and pest control and to serve as a source of advice to the government of Ontario and to municipalities requiring information and advice on pesticide matters;—give it the responsibility of instituting or commissioning its own research where information is not available or inadequate, and to maintain a reference library for all available material on pesticides and responsible pest control practices generally. 5. Would the Minister inform the Legislature who the members of the Ontario Pesticides Advisory Board are, and what is their affiliation. 6. Would the Minister inform the Legislature as to the annual budget of the Ontario Pesticides Advisory Board, and how the budget is allocated. 7. Would the Minister inform the Legislature who the Chairman of the Pesticide Advisory Board is and what staff he is allocated. 8. Can the Minister tell the Legislature what duties the staff of the Ontario Pesticides Advisory Board perform.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
26. *Mr. Shulman*—Enquiry of the Ministry—Can it be arranged so that persons of French-Canadian extraction who have had criminal charges laid against them, have their trial held in French if they so request.
27. *Mr. Renwick* (Riverdale)—Enquiry of the Ministry—How many applications for Ontario Housing are still outstanding, bearing respectively appendix letters A, B, C, D, E, F, G, H and J.
28. *Mr. Renwick* (Riverdale)—Enquiry of the Ministry—How many charges were laid and prosecuted by the Ontario Securities Commission during the years 1968 and 1969 for breaches of the Securities Act and of these charges how many were withdrawn and how many were dismissed.
29. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—When was the decision made by the Ministry to give a grant of \$300,000 to the FESTRADA (The World Festival of Traditional Arts) as noted by the Minister of Tourism and Information in the Legislature of April 16, 1970, (page 1595 Hansard). Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is FESTRADA a limited company. Is FESTRADA under any obligation to return funds to the Province of Ontario if total revenues exceed total expenditures. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Is there an agreement between the Province and FESTRADA that the accounts of FESTRADA will be regularly audited by an auditor appointed jointly by the Province, the Federal Government, and the Council of Metropolitan Toronto. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Jugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. 22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.

4. Has the Minister given consideration to the restructuring of the Ontario Pesticides Advisory Board as recommended by the Royal Commission to:—give it the responsibility to recommend the appropriate standards for examination and re-examination for licences, but not itself conduct such examinations, thus permitting the raising of standards;—give it the responsibility to serve as a compiler of information on pesticides and pest control and to serve as a source of advice to the government of Ontario and to municipalities requiring information and advice on pesticide matters;—give it the responsibility of instituting or commissioning its own research where information is not available or inadequate, and to maintain a reference library for all available material on pesticides and responsible pest control practices generally. 5. 24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled “Secondary School Accommodation—Area 2”.

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. If agreement has been reached to increase any or all of those salaries during the 1970-71 fiscal year, what will be the annual salary rate of every deputy minister after the increases come into effect; and what will be the effective date of the increases.
13. *Mr. Martel*—Enquiry of the Ministry—(a) How many sons and/or daughters of the following received student awards in the academic year 1969-70: Doctors (all types); Lawyers; Dentists; Chiropractors; Teachers; Architects; Accountants; Businessmen; Managers in businesses; (b) How many sons and/or daughters received student awards in the academic year 1969-70 whose parents net earnings were: (a) 10,000; (b) 11,000; (c) 12,000; (d) 13,000; (e) 14,000; (f) 15,000; (g) 16,000; (h) 17,000; (i) 18,000; (j) 19,000; (k) 20,000; (l) 20,000 to 25,000; (m) 25,000 and over.
14. *Mr. Sargent*—Enquiry of the Ministry—How many meetings have been held with neighbouring States of the Union, including New York, Michigan and Illinois, on the problem of pollution in international waters; what are the dates of such meetings; who attended on behalf of Ontario and are reports of such meetings available.

15. *Mr. Ferrier*—Enquiry of the Ministry—How many students have enrolled at the beginning of each academic year in the various courses at the Porcupine Campus of the Northern College of Applied Arts and Technology since it opened in the fall of 1967. How many students have been forced to withdraw each year because of failure in examinations. How many students each year have withdrawn for other reasons. What has been the staff-student ratio in each year. What has been the number of staff employed each year of its operation. How many teachers have been fired each year, and what is the reason given for each firing. How many teachers have resigned each year, and what is the reason for each resignation.

17. *Mr. Makarchuk*—Enquiry of the Ministry—1. What are all the sources of pollution located by the O.W.R.C. which are contributing to the pollution of the Grand River. 2. What action is being taken or contemplated by the Government aimed at terminating this pollution. 3. What are the target dates.

18. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—How many written requests were received in 1969 by the Department of Education for their "consultative Service for School Personnel" as described on page 80 of the publication entitled *Ontario Government Services, 1970*. What are the names of all the local authorities involved. How many such requests were received from January 1, 1970, to March 31, 1970. What are the names of all the local authorities involved.

19. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry— How many written requests were received in 1969 by the Department of Education from school boards for "consultative Services to School Boards" as described on page 82 of the publication entitled *Ontario Government Services, 1970*. What are the names of the School Boards involved. How many such requests were received from January 1, 1970 to March 31, 1970. What are the names of the school boards involved.

22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.

23. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—1. Has the Minister of Health given consideration to the recommendation that the use of the pesticide ALPHACHLORALOSE as an agent for the live capture of ducks should be discouraged. 2. Has the Minister issued a directive discouraging the use of ALPHACHLORALOSE. 3. Has the Department of Health given consideration to the restructuring of the Ontario Pesticides Advisory Board to remove the representatives of manufacturers or distributors of pesticides as recommended by the Royal Commission.

4. Has the Minister given consideration to the restructuring of the Ontario Pesticides Advisory Board as recommended by the Royal Commission to:—give it the responsibility to recommend the appropriate standards for examination and re-examination for licences, but not itself conduct such examinations, thus permitting the raising of standards;—give it the responsibility to serve as a compiler of information on pesticides and pest control and to serve as a source of advice to the government of Ontario and to municipalities requiring information and advice on pesticide matters;—give it the responsibility of instituting or commissioning its own research where information is not available or inadequate, and to maintain a reference library for all available material on pesticides and responsible pest control practices generally. 5. Would the Minister inform the Legislature who the members of the Ontario Pesticides Advisory Board are, and what is their affiliation. 6. Would the Minister inform the Legislature as to the annual budget of the Ontario Pesticides Advisory Board, and how the budget is allocated. 7. Would the Minister inform the Legislature who the Chairman of the Pesticide Advisory Board is and what staff he is allocated. 8. Can the Minister tell the Legislature what duties the staff of the Ontario Pesticides Advisory Board perform.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
26. *Mr. Shulman*—Enquiry of the Ministry—Can it be arranged so that persons of French-Canadian extraction who have had criminal charges laid against them, have their trial held in French if they so request.
27. *Mr. Renwick* (Riverdale)—Enquiry of the Ministry—How many applications for Ontario Housing are still outstanding, bearing respectively appendix letters A, B, C, D, E, F, G, H and J.
28. *Mr. Renwick* (Riverdale)—Enquiry of the Ministry—How many charges were laid and prosecuted by the Ontario Securities Commission during the years 1968 and 1969 for breaches of the Securities Act and of these charges how many were withdrawn and how many were dismissed.
29. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry— When was the decision made by the Ministry to give a grant of \$300,000 to the FESTRADA (The World Festival of Traditional Arts) as noted by the Minister of Tourism and Information in the Legislature of April 16, 1970, (page 1595 Hansard). Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is FESTRADA a limited company. Is FESTRADA under any obligation to return funds to the Province of Ontario if total revenues exceed total expenditures. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Is there an agreement between the Province and FESTRADA that the accounts of FESTRADA will be regularly audited by an auditor appointed jointly by the Province, the Federal Government, and the Council of Metropolitan Toronto. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.

5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.

6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.

7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.

8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.

5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.

6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.

7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.

8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.

5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.

6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.

7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.

8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

June 16—*Mr. MacDonald*—Notice of Reasoned Amendment under Standing Order 32—That the motion for second reading of Bill 96, entitled An Act to amend the Employment Standards Act, 1968, be amended by deleting all the words after "That" and substituting therefor the words: "the House is of the opinion that the Bill is fundamentally defective in principle in that (1) it fails to provide adequate notice of termination of employment (or wages in lieu of notice) based on the combined factors of age and length of service, and (2) it fails to provide for adequate notice and public hearing before the Minister in the event that an employer decides for any reason to curtail or discontinue all or a substantial part of his operations or to change the operations in any way which would substantially reduce the number of his employees or the composition of his work force as to trade or other skills or qualifications, with power in the Minister to determine the matter. And this House is further of the opinion that Bill 96 should be withdrawn and a new Bill meeting the objections in principle listed above, be introduced forthwith.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
 10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
 11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
 12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.
- June 16—*Mr. MacDonald*—Notice of Reasoned Amendment under Standing Order 32—That the motion for second reading of Bill 96, entitled An Act to amend the Employment Standards Act, 1968, be amended by deleting all the words after "That" and substituting therefor the words: "the House is of the opinion that the Bill is fundamentally defective in principle in that (1) it fails to provide adequate notice of termination of employment (or wages in lieu of notice) based on the combined factors of age and length of service, and (2) it fails to provide for adequate notice and public hearing before the Minister in the event that an employer decides for any reason to curtail or discontinue all or a substantial part of his operations or to change the operations in any way which would substantially reduce the number of his employees or the composition of his work force as to trade or other skills or qualifications, with power in the Minister to determine the matter. And this House is further of the opinion that Bill 96 should be withdrawn and a new Bill meeting the objections in principle listed above, be introduced forthwith.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned

for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants,

technical people, etc.” and was there any written guarantee that open tenders would be used to select the “consultants”. Why did not the budget include any breakdown of the \$750,000 for “accommodations” for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is FESTRADA a limited company. Is FESTRADA under any obligation to return funds to the Province of Ontario if total revenues exceed total expenditures. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Is there an agreement between the Province and FESTRADA that the accounts of FESTRADA will be regularly audited by an auditor appointed jointly by the Province, the Federal Government, and the Council of Metropolitan Toronto. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto’s ethnic groups have in FESTRADA.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
 10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
 11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
 12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.
- June 16—*Mr. MacDonald*—Notice of Reasoned Amendment under Standing Order 32—That the motion for second reading of Bill 96, entitled An Act to amend the Employment Standards Act, 1968, be amended by deleting all the words after "That" and substituting therefor the words: "the House is of the opinion that the Bill is fundamentally defective in principle in that (1) it fails to provide adequate notice of termination of employment (or wages in lieu of notice) based on the combined factors of age and length of service, and (2) it fails to provide for adequate notice and public hearing before the Minister in the event that an employer decides for any reason to curtail or discontinue all or a substantial part of his operations or to change the operations in any way which would substantially reduce the number of his employees or the composition of his work force as to trade or other skills or qualifications, with power in the Minister to determine the matter. And this House is further of the opinion that Bill 96 should be withdrawn and a new Bill meeting the objections in principle listed above, be introduced forthwith.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned

for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
 10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
 11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
- June 16—*Mr. MacDonald*—Notice of Reasoned Amendment under Standing Order 32—That the motion for second reading of Bill 96, entitled An Act to amend the Employment Standards Act, 1968, be amended by deleting all the words after "That" and substituting therefor the words: "the House is of the opinion that the Bill is fundamentally defective in principle in that (1) it fails to provide adequate notice of termination of employment (or wages in lieu of notice) based on the combined factors of age and length of service, and (2) it fails to provide for adequate notice and public hearing before the Minister in the event that an employer decides for any reason to curtail or discontinue all or a substantial part of his operations or to change the operations in any way which would substantially reduce the number of his employees or the composition of his work force as to trade or other skills or qualifications, with power in the Minister to determine the matter. And this House is further of the opinion that Bill 96 should be withdrawn and a new Bill meeting the objections in principle listed above, be introduced forthwith.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against

the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.

22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
 10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
 11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
- June 16—*Mr. MacDonald*—Notice of Reasoned Amendment under Standing Order 32—That the motion for second reading of Bill 96, entitled An Act to amend the Employment Standards Act, 1968, be amended by deleting all the words after "That" and substituting therefor the words: "the House is of the opinion that the Bill is fundamentally defective in principle in that (1) it fails to provide adequate notice of termination of employment (or wages in lieu of notice) based on the combined factors of age and length of service, and (2) it fails to provide for adequate notice and public hearing before the Minister in the event that an employer decides for any reason to curtail or discontinue all or a substantial part of his operations or to change the operations in any way which would substantially reduce the number of his employees or the composition of his work force as to trade or other skills or qualifications, with power in the Minister to determine the matter. And this House is further of the opinion that Bill 96 should be withdrawn and a new Bill meeting the objections in principle listed above, be introduced forthwith.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against

the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
 10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
 11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
- June 16—*Mr. MacDonald*—Notice of Reasoned Amendment under Standing Order 32—That the motion for second reading of Bill 96, entitled An Act to amend the Employment Standards Act, 1968, be amended by deleting all the words after "That" and substituting therefor the words: "the House is of the opinion that the Bill is fundamentally defective in principle in that (1) it fails to provide adequate notice of termination of employment (or wages in lieu of notice) based on the combined factors of age and length of service, and (2) it fails to provide for adequate notice and public hearing before the Minister in the event that an employer decides for any reason to curtail or discontinue all or a substantial part of his operations or to change the operations in any way which would substantially reduce the number of his employees or the composition of his work force as to trade or other skills or qualifications, with power in the Minister to determine the matter. And this House is further of the opinion that Bill 96 should be withdrawn and a new Bill meeting the objections in principle listed above, be introduced forthwith.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against

the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.

14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants,

technical people, etc.” and was there any written guarantee that open tenders would be used to select the “consultants”. Why did not the budget include any breakdown of the \$750,000 for “accommodations” for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is FESTRADA a limited company. Is FESTRADA under any obligation to return funds to the Province of Ontario if total revenues exceed total expenditures. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Is there an agreement between the Province and FESTRADA that the accounts of FESTRADA will be regularly audited by an auditor appointed jointly by the Province, the Federal Government, and the Council of Metropolitan Toronto. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto’s ethnic groups have in FESTRADA.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.

If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

30. *Mr. Shulman*—Enquiry of the Ministry—How many hours of therapy are offered to each inmate at the Alex G. Brown Memorial Clinic, and in other provincial institutions such as the Millbrook Reformatory, per week. Is this therapy mentioned above given by psychiatrists, psychologists, religious, or lay personnel. At the Provincial Reformatory at Guelph, is it true that a good deal of group therapy is given by guards and Salvation Army personnel. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.

29. *Mr. Reid (Scarborough East)*—Enquiry of the Ministry— When was the decision made by the Ministry to give a grant of \$300,000 to the FESTRADA (The World Festival of Traditional Arts) as noted by the Minister of Tourism and Information in the Legislature of April 16, 1970, (page 1595 Hansard). Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted

revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is FESTRADA a limited company. Is FESTRADA under any obligation to return funds to the Province of Ontario if total revenues exceed total expenditures. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

29. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry— When was the decision made by the Ministry to give a grant of \$300,000 to the FESTRADA (The World Festival of Traditional Arts) as noted by the Minister of Tourism and Information in the Legislature of April 16, 1970, (page 1595 Hansard). Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is FESTRADA a limited company. Is FESTRADA under any obligation to return funds to the Province of Ontario if total revenues exceed total expenditures. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Is there an agreement between the Province and FESTRADA that the accounts of FESTRADA will be regularly audited by an auditor appointed jointly by the Province, the Federal Government, and the Council of Metropolitan Toronto. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

52. *Mr. Winkler*—Enquiry of the Ministry—Was Mr. Stephen Lewis, M.P.P., Scarborough West, ever a member of The Board of Directors of Browndale. Is Mr. Stephen Lewis, M.P.P., Scarborough West, a member of The Board of Directors of Brown Camps Residential and Day Schools.

If not, why is construction proceeding. 2. What contaminants other than Sulphur Dioxide will be emitted from the stack and in what quantity. 3. NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

29. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry— When was the decision made by the Ministry to give a grant of \$300,000 to the FESTRADA (The World Festival of Traditional Arts) as noted by the Minister of Tourism and Information in the Legislature of April 16, 1970, (page 1595 Hansard). Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is FESTRADA a limited company. Is FESTRADA under any obligation to return funds to the Province of Ontario if total revenues exceed total expenditures. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Jugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. 52. *Mr. Winkler*—Enquiry of the Ministry—Was Mr. Stephen Lewis, M.P.P., Scarborough West, ever a member of The Board of Directors of Browndale. Is Mr. Stephen Lewis, M.P.P., Scarborough West, a member of The Board of Directors of Brown Camps Residential and Day Schools.

If not, why is construction proceeding. 2. What contaminants other than Sulphur Dioxide will be emitted from the stack and in what quantity. 3. NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.

NOTICE PAPER

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of $2\frac{1}{2}$ per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to $\frac{1}{2}$ of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pilman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
13. *Mr. Bolton*—Resolution—That in the opinion of this House the Government of Ontario should ask the Government of Canada to launch a vigorous campaign, perhaps through the United Nations, to persuade the U.S.A. to forbid the high-yield underground nuclear explosion now being planned for Alaska's Amchitka Island in the latter part of 1971, especially since the planned explosion will be twice as great as any previous one. And that the objections be the same as those raised by advisers to the Atlantic-Pacific Interoceanic Canal Study Commission in recommending against the use of nuclear explosives to create an Atlantic-Pacific Canal in Panama or Columbia. Namely: (a) the danger of causing earthquakes; (b) the resulting radio-active fall-out; (c) the uncertainty regarding ecological consequences.
14. *Mr. Jessiman*—Resolution—That one day each year be set aside as Ontario Indian Day in recognition of the historical and cultural contribution of the Indian people to the history and development of our Province.
15. *Mrs. Renwick* (Scarborough Centre)—Resolution—That in the opinion of this House an escalation clause be written into the Family Benefits Act and the General Welfare Assistance Act which would ensure that all schedules on which need is based are automatically adjusted upwards annually in proportion to increases in the consumer price index for each category of expenditures covered by the schedules, so that no welfare recipient falls behind in purchasing power when inflation occurs.

And further that the principle of indexing outlined above be applied to all other social assistance payments and government pension payments under the jurisdiction of the provincial government.

And further, that the principles of indexing outlined above be applied to the qualifying levels set for various benefits supplied under provincial programmes, such as premium assistance for OHSIP and OHSC, permitting the level of increase in benefits to correspond to actual cost of living changes.
